★ Overall Funnel Insights . Total applicants: 100 . Total hires: 16 . Overall conversion rate: 28.5% . Highest drop-off: Screening stage . Strong early-stage movement from Applications → Screening . Only 16 candidates reach Hired, showing a narrow funnel.	★ Average Time Per Stage . Applications: 5.5 days . Screening: 5.3 days . Interviewed: 5.3 days . Offered: 5.9 days . Hired stage duration: 6.2 days (Slowest stage)	★ Department Performance Finance . Smooth progression . Fastest time-to-hire Engineering . Long interview cycle but results in a hire Marketing . Most unstable funnel . Late-stage rejection, frequent early drops HR . Drops during screening → needs better candidate alignment
★ Stage-Level Insights . Applications → Screening: High pass rate . Screening → Interviewed: Largest drop-off point . Interviewed → Offered: Stable progression . Offered → Hired: High success except 1 rejection (Engineering) . Total time-to-hire ≈ 22 days	★ Source Effectiveness . Company Website: Best-performing source . Referral: Strong initial quality but drops at Screening . Indeed: Weakest source, high early-stage drop-offs . Recommendation: Strengthen Indeed filtering or adjust targeting
